

Pumar
Ideal 4000

The 70 mm width and 5- chambers provide optimum thermal isolation and soothing silence in your house. Modern rounded shapes of windows are important elements emphasizing the style of your house. They are IDEAL for everybody who cares about aesthetic or technical matters.

Pumar
Ideal 4000

The 70 mm width and 5- chambers provide optimum thermal isolation and soothing silence in your house. Modern rounded shapes of windows are important elements emphasizing the style of your house. They are IDEAL for everybody who cares about aesthetical or technical matters.

1. Narrow structure, mild curves and rakes make the profiles look modern and stylish.
2. 5-chambers and 70 mm depth for optimal insulation.
3. Securely mounted brace-chambers.
4. A large chamber of reinforcement makes it possible to use steel reinforcement.
